STAR BATTLE

VIC-1902

An alien attack force is trying to invade your star system. Your objective is to defend your star ship from the invaders by using your loser cannon. The game is over when all three star ships at your disposal have been destroyed.

Pressing the F1 function key allows for one person to play (F3 for two players). To move across the screen from left to right on also to fire the star ship laser gun, simply press the following keys.

L moves star ship left] moves star ship right
A fires star ship laser.

If you have a joystick, this can also be used to manoeuvre and fire the star ship laser.

Released: 1981
